

Amendment to 2015 State Legislative Agenda Resolution
Sponsored by Councilmember Nick Licata
December 1, 2014

Licata Amendment 3

Exhibit 1, the second paragraph on page 3, is amended as follows:

We support gender equity and family-friendly workplace policies, such as paycheck fairness, parental leave and affordable childcare, so that all people across gender lines thrive economically and are safe and healthy. We support local governments' ability to adopt standards to protect the health, safety, and well-being of their residents, to adopt tax measures that do not unfairly burden those in need, and oppose preemption of local regulations related to retaining housing affordability.

Rationale:

- Councilmember Sawant asked me to propose amendments that address limitations we face in passing local legislation related to taxation and housing affordability retention. I support these objectives.
- OIR does not oppose this language.
